\*Overdraft and NSF Returned Item Fees apply to overdrafts and non-sufficient funds items (“NSF Items”) created by check, in person withdrawal, ATM withdrawal, or other electronic means; provided however, that for consumer accounts we will only charge an Overdraft Fee for overdrafts caused by ATM withdrawal or one-time debit card transactions if opted-in to that service.

\*\* Please be aware that an item may be presented and returned multiple times, resulting in multiple fees. The Bank does not monitor or control the number of times an item is presented for payment and there is no limit on the number of NSF Returned Item Fees that can be assessed for an item, if the same item is presented for payment multiple times. **You agree that an NSF Returned Item Fee may be charged each time an NSF Item is presented and returned, regardless of the number of times the NSF Item is presented and returned, or if the NSF Item is later covered by the Bank, in its discretion, as an overdraft.** This means that multiple NSF Returned Item Fees, as well as an Overdraft Fee, could be incurred for the same NSF Item if it is presented and returned multiple times for payment. Please note that the Bank will not charge more than **six (6) total NSF Returned Item and Overdraft Fees combined to an account per day.** In addition, the Bank will not charge an Overdraft Fee for overdrawing items with a transaction amount of \$5.00 or less and will not charge an NSF Returned Item Fee for returned items with a transaction amount of \$5.00 or less.

\*\*\*Applies per each credited or debited item, per presentment, when an item (check, originated ACH, electronic transfer or other dishonored payment) is returned unpaid for any reason and charged back to the account where it was initially deposited.

\*\*\*\*Fee applies to checking, savings, money market and investor money market accounts with balances of less than \$500 where you have not made any deposits or withdrawals for 1 year.
