### **Clear Mountain Bank donates computers to Garrett County Schools**

**Bruceton Mills, W.Va., July 27, 2010** – Clear Mountain Bank recently donated 20 desktop computers to the Garrett County Board of Education for use in the county school system.

The Dell computers feature Intel Pentium 4 microprocessors. The bank elected to donate the computers so that schoolchildren in Garrett County could benefit from their use.

“We’re pleased to be able to contribute these computers to the Garrett County Board of Education,” said Clint McCabe, director of marketing for Clear Mountain Bank. “It’s important for us to provide support to local educational organizations for the betterment of the communities we serve.”

Rick Dolan, computer technician for the Garrett County Board of Education, said he already has plans for utilizing the computers.

“We greatly appreciate this donation from Clear Mountain Bank,” said Dolan. “We will be able to use the computers in our high schools and middle schools for testing, and to also replace any older computers in the county school system.”
